

Preliminary Amendment
U.S. Appln. No. 10/751,118
Attorney Docket No. Q73832

AMENDMENTS TO THE SPECIFICATION

On page 1 of the specification, please replace the present title with the following rewritten title:

CUBIC BORON NITRIDE ABRASIVE GRAIN, PRODUCTION METHOD

THEREFOR, AND GRINDING WHEEL AND COATED ABRASIVE USING THE SAME

On page 12, please delete the second full paragraph and replace it with the following one:

The packing ratio of the cubic boron nitride abrasive grains of the present invention is obtained by dividing a bulk density (unit: g/cm³) thereof by the true density of cubic boron nitride (3.48 g/cm³). The bulk density is measured through a method in accordance with "Testing method for Bulk density of artificial abrasives" specified in JIS R 61266130: 2002.
